<p style="text-align: center;"><u>Winter Safety Tips</u></p> <p>During a power outage – Have enough water and food to last for 72 hours or 3 days. Make sure you have a telephone and radio that will work without hydro. Generators should only be used outdoors. DO NOT use your gas stove or oven to heat your home.</p> <p>Adjust your driving speed to your road conditions. If you hit black ice the best snow tires or 4x4 will not stop you from sliding or possibly crashing. Be aware. Drive safe.</p>			

Include your Community or Not-for-profit event in the next issue of What's Happening Wollaston?
